Hi Stephanie,

As a follow-up to our Wednesday call, here is the additional language that we propose for the prefatory clause in Paragraph 3.1 of the Arkema SOW:

The purpose of the Pre-Design Investigation (PDI) is to identify and address data gaps by conducting field investigations to develop the Basis of Design Report and Arkema RD Work Plan. Respondent Arkema shall be permitted to collect data it deems necessary to inform the Sufficiency Assessment and to complete the RD.

The additional language is highlighted. Similar language appears in the FMC SOW.

If you have any questions, just let me know.

Thanks,  
Matt
